8IGHT-T RACE ROLLER

LOSA0802

Retail: \$1099.99
Available for \$679.99

Race Rollers are competition RC vehicles that are hand assembled and tuned to exacting specifications. Each and every screw is installed to specific torque settings to maintain consistent adjustment. Additionally, every screw or bolt that secures metal-to-metal contact features thread-lock to prevent backing out or loosening due to vibration. The clutch assembly is also completely assembled and ready to install on the engine of your choosing (engine not included), and the differentials and shocks are pre-built and filled with 100% pure silicone fluid.

Once assembled, the 8IGHT-T Race Roller is given a complete inspection to ensure that it meets Team Losi's requirements for durability and performance.

1/8-scale factory-tuned 4WD assembled race chassis

The 8IGHT-T™ Race Roller™ is the latest innovation from Team Losi.® Combining cutting-edge vehicle design with precise, at-the-factory assembly, Race Rollers are dialed right out of the box.

- Ultra-narrow drivetrain layout for quick response and sharp handling
- Oversized, threaded, hard-anodized shocks for smooth operation
- Four-shoe clutch and oversized clutch bearing for efficient, reliable power transfer
- Machined, premium-alloy aluminum shock towers for incredible strength
