

Included Devices

Adapter Setup

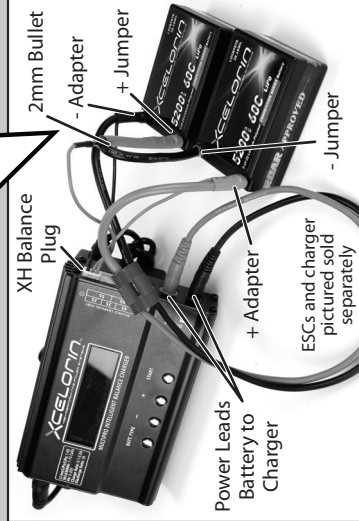

Jumper Cable

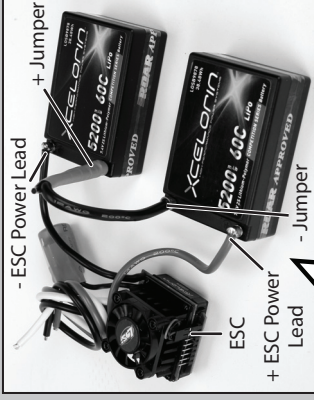

Charging Configuration

For LiPo balance charging, plug in the battery as shown in the image above.

Note: Losi EC3™ Connectors are used for the adapter and charger power leads.

Vehicle Configurations

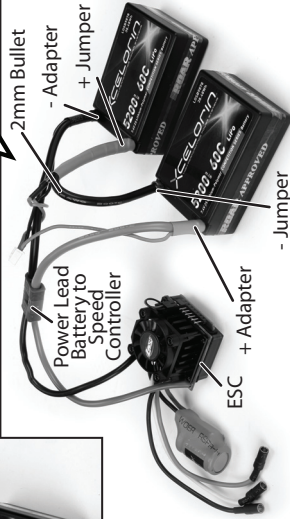

Vehicle Configuration Using 4mm Bullet Plugs

For use in vehicle using adapter with plug, install the LiPo battery as shown in the image above.

Vehicle Configuration using Adapter Setup

When using the Adapter Setup with a high current connector, install the LiPo battery as shown in the image below.

Note: Losi EC3 Connectors are used for the adapter and speed controller power leads.

Note: Be sure to install all plugs, adapters, and jumper cables using the correct polarity. Failure to do so may cause damage to the LiPo battery, speed controller, or charging devices. Installing any plugs, adapters, or jumper cables incorrectly will void service warranties.
